Brief introduction to yourself:

My name is Diana Ramírez, I am 22 years old, I am from México, I am looking to volunteer because I would like to discover new cultures, nature, food and places, share a bit of my country. I am currently studying a career in computer systems engineering, after finishing this career I consider studying another related to chemistry, I am a person who likes to undertake, learn new things, self-taught, responsible, and social.

Why you chose this specific project and why you are interested in it?:

I'm consider myself a fanatic about the history of different country, I really like to know more about the history of France so this project it's perfect for me because I help to remake an important monument of Valle del dordoña, I'm so dedicated on my work so I can help y any part of the project, i can learn hoe do right the thing

The reasons why you think are a good candidate for this position (your background and experience, if any):

I'm considered good in this project because a like read about the history of the different country, I don't have many experiences in construction but I so dedicated in my work and I really like learn many things, I'm so really active in my activities I don't like stay seated in my house, I'm always doing something, this are my reasons

How you think you can contribute to the project:

I want learn many about the different countries and I think that this project is good for that, I can give all my optimism and I have the security that I can do that this project be my base to know many about the history I can give my experience about the construction, historic monuments and al my eager to learn about the Fage castle because I think thar i's so fascinating learn about new cultures and their monuments.

I would like to express my gratitude for your attention.
